

# Oval-Lo<sup>c</sup>

*A new type of Tog-L-Lo<sup>c</sup> - where form meets function.*

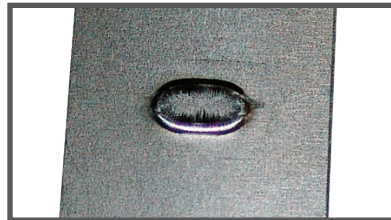

Oval-Lo<sup>c</sup> was born from the vision of combining our popular Tog-L-Lo<sup>c</sup> round clinch joint with the rotation resistance of our Lance-N-Lo<sup>c</sup> sheet metal joining system. The Oval-Lo<sup>c</sup> process features the leak-proof and long tool life characteristics of a traditional Tog-L-Lo<sup>c</sup> joint, but also provides improved strength.

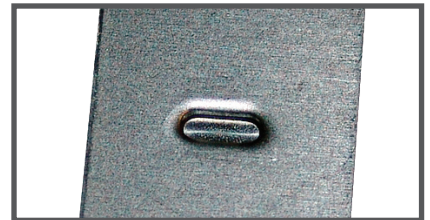

**Contact BTM today to learn more about Oval-Lo<sup>c</sup> clinching!**
